

# SCHOLARSHIPS in Slovenia

The Fund implements various scholarship programmes. It thus promotes knowledge development, including exceptional achievements, acquisition of new knowledge and experience with international mobility and shortage occupations, by which it also improves employment possibilities.

## Scholarships for studies of Slovenians living abroad in Slovenia

are intended for descendants of Slovenian migrants who are members of the indigenous Slovenian national community in neighbouring countries to study in Slovenia at first or second Bologna degree.

## Scholarships for shortage occupations

are intended to encourage young people to enrol in educational programmes for occupations for which there is a recognised shortage since there is a lack of workforce in the labour market for these occupations.

## Scholarships in the Field of Social Welfare

The purpose of scholarships in the field of social welfare for obtaining a qualification as a social worker is to encourage young people to pursue education for this profession, as there is a noticeable gap in the labor market between the current and future number of available professionals and the projected demand for jobs.

## The Ad futura programmes

promote international mobility of secondary school and university students and researchers from Slovenia abroad and vice versa. The purpose of the Ad futura scholarships is to improve the competitiveness of the Slovenian economy by means of knowledge transfer and best practices from abroad to Slovenia. Study mobility of foreigners to Slovenia in order to exchange cultural values, knowledge and indepth cooperation in the fields of education and socio-economic partnership among Slovenia and foreign countries is also supported.
